

MOBINA RAHMANIAN

Ahvaz, Iran, Postal Code 6176917367

Email: mobinarahmanian73@gmail.com | Phone: +98 939 650 5793

GitHub: Mobina2002rahmani | LinkedIn: Mobina Rahmanian

Date of Birth: 18 September 2002

PROFESSIONAL PROFILE

Computer Engineering graduate with a strong academic background in software development, programming, web technologies, and intelligent computing systems. Experienced in Python programming, automation, Telegram bot development, technical support, and web application design.

Passionate about Artificial Intelligence, Software Engineering, Data Analysis, and Intelligent Systems, with a continuous commitment to learning and applying modern technologies to solve real-world problems. Possesses strong analytical, problem-solving, and communication skills, supported by multilingual proficiency and practical experience in both technical and educational environments.

Currently seeking admission to a Master's degree program in Artificial Intelligence, Applied Computing, Software Engineering, or related fields to further develop expertise in intelligent systems, machine learning, distributed computing, and advanced software development.

EDUCATION

Bachelor of Science in Computer Engineering

Jihad University of Ahvaz, Iran

2021 - 2025

GPA: 15.47 / 20

Relevant Coursework:

- Artificial Intelligence
- Software Engineering
- Object-Oriented Programming
- Data Structures and Algorithms
- Database Systems
- Operating Systems
- Computer Networks
- Web Development

High School Diploma

Shahed Fatemieh High School, Mahshahr, Iran

2019 - 2020

Final GPA: 17.40 / 20

Certificate in Python Programming and Artificial Intelligence (R Programming)

Kharazmi Technical and Vocational Training Institute, 2025

- Python Programming
- Artificial Intelligence Fundamentals
- Data Processing and Analysis with R
- Problem Solving and Computational Thinking

PROFESSIONAL EXPERIENCE

Telegram Bot Developer (Freelance)

Jul 2025 - Present

- Design and develop Telegram bots using Python.
- Implement automated messaging systems and command-based workflows.
- Integrate third-party APIs for data retrieval and process automation.
- Develop customized solutions to improve user interaction and operational efficiency.
- Apply Python programming to automate repetitive tasks and optimize digital workflows.

English Language Instructor (Independent)

Jul 2025 - Present

- Deliver personalized English language training programs.
- Design learning materials tailored to students' academic and professional goals.
- Develop communication, presentation, and mentoring skills through one-on-one instruction.

Junior Computer Scientist / IT Support (Freelance)

2024 - 2025

- Performed software installation, maintenance, updates, and troubleshooting across multiple client systems.
- Conducted system diagnostics and resolved technical issues to improve performance and reliability.
- Designed and maintained websites using HTML, CSS, JavaScript, and WordPress.
- Developed Python scripts for task automation and workflow optimization.
- Assisted with data analysis and software-related projects.
- Developed Telegram bots using Python, including API integration and automated command handling.

German Language Instructor (Independent)

Jan 2024 - Present

- Provide German language instruction for learners at different proficiency levels.
- Prepare structured educational materials and learning plans.
- Support students in developing language skills for academic and professional purposes.

Computer and Informatics Engineer, Naghsh Noor Film and Photography Center

2023 - 2024

- Managed software installation, configuration, and system maintenance.
- Diagnosed and resolved software and hardware issues.
- Maintained digital infrastructure and ensured smooth operation of technical systems.
- Supported organizational IT needs and optimized system performance.

Reception and Medical Assistant, Motahari Medical Clinic

2022 - 2024

- Managed patient reception and appointment coordination.
- Maintained administrative records and documentation.
- Assisted healthcare staff with daily operational procedures.
- Developed strong organizational, communication, and customer service skills.

Pharmacy Technician, Dr. Khoshnavaz Pharmacy

Jun 2020 - Oct 2020

- Assisted in medication preparation and inventory management.
- Supported daily pharmacy operations and customer service activities.
- Maintained accurate records and followed healthcare procedures.

- Worked collaboratively in a fast-paced healthcare environment.

TECHNICAL SKILLS

Programming Languages

- Python
- R
- JavaScript
- SQL (Basic)

Artificial Intelligence and Data Analysis

- Machine Learning Fundamentals
- Data Analysis with Python and R
- Data Processing
- Data Visualization
- Algorithm Design

Software Engineering

- Object-Oriented Programming (OOP)
- Software Development Lifecycle (SDLC)
- Software Maintenance and Troubleshooting
- Version Control (Git/GitHub)

Web Development

- HTML5
- CSS3
- JavaScript
- WordPress
- Responsive Web Design

Automation and Bot Development

- Telegram Bot Development
- API Integration
- Workflow Automation
- Python Scripting

Technical Tools

- Git and GitHub
- Microsoft Office Suite
- Digital Productivity Tools

TEACHING EXPERIENCE

Independent English Language Instructor

2025 - Present

- Delivered personalized language training programs.
- Developed communication and presentation skills through educational practice.

Independent German Language Instructor

2024 - Present

- Provided German language instruction for learners at different levels.
- Enhanced intercultural communication and educational planning abilities.

PROJECTS

Telegram Automation Bot

- Developed a Python-based Telegram bot for automated communication and task management.
- Implemented command handling, automated responses, and API integration.

Web Development Projects

- Designed and launched responsive websites using modern web technologies.
- Optimized website performance, accessibility, and user experience.

Data Analysis Practice Projects

- Applied Python and R for data processing, analysis, and visualization.
- Explored analytical approaches to solving computational problems.

CERTIFICATIONS

- Python Programming Certificate, Kharazmi Institute (2025)
- R Programming Certificate, Kharazmi Institute (2025)
- Artificial Intelligence Training Certificate, Kharazmi Institute (2025)
- TELC German Language Certificate, B2

LANGUAGES

- Persian: Native
- English: C1, Advanced Professional Proficiency, TOEFL iBT Home Edition Score 100/120
- German: B2, TELC Certified

RESEARCH INTERESTS

- Artificial Intelligence
- Machine Learning
- Intelligent Systems
- Software Engineering
- Distributed Computing
- Data Analytics
- Intelligent Automation
- Computer Vision
- Applied Computing

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Teamwork
- Communication Skills
- Technical Documentation
- Adaptability
- Continuous Learning

INTERESTS

- Programming and Software Development
- Artificial Intelligence
- Reading Technology and Computer Science Literature
- Traveling
- Yoga
- Learning New Technologies
